Universalist Entertainment.

A pleasant entertainment was given in the Universalist church on Wednesday evening of last week. The tableaux and dialogues were all of an elevated character, and well executed. We were especially pleased with "The Lord's Prayer," "The Changed Cross," and the song of the "Little Reapers." Considering the number who had part, and how young a good many of them were, the programme was gone through with great promptness, creditable alike to those who superintended and those who took part. The house was nearly full, and after the entertainment the greater portion of the audience went to the basement to partake of ice-cream, strawberries, pine-apple, &c. The room was made very attractive, and all passed off pleasantly.

ROAD.—The Board of Directors of the Syracuse, Onondaga and Oswego Railroad Company held a meeting in Syracuse Friday afternoon, at which it was determined to continue the survey recently begun under the charge of Mr. James Barnes, with the view of adopting a line of location for the contemplated road. It is expected that the length of road to be constructed, will not exceed sixteen miles. The surveys are to be prosecuted as rapidly as possible, and together with the estimates, will be completed within two or three weeks, ready for the examination of the Board. The president was directed to advertise for proposals for the construction of the entire work, with the exception of the iron.

The Syracuse Standard says it looks now as if this important work was in a fair way to be accomplished within the current year.

SUNDAY SCHOOL ASSOCIATION.—Notice is hereby given that there will be an Association held in the Congregational church at Sand Bar, in the town of Albion, July 10th, service to commence at ten o'clock, and continue through the day and evening. A cordial invitation is given to all to come and bring their lunch with them, so as to be present if possible through the entire session. The services are to be conducted by Hon. O. J. Harmon, from Oswego; the singing by R. A. Burdick. All those having the "Pure Gold" will please to bring it. Come one, come all, everybody.

JAS. C. BOWEN, Sec'y.

GRACE CHURCH.—Until further notice, the hours of Divine service, on Sundays, at the Episcopal church, will be 11 a. m. and 6 1/2 p. m. The change in the evening hour is made in order to obviate the necessity of lighting the church during the heated term.

ICE CREAM ON THURSDAYS.—In accordance with their custom during last summer, the ladies of the Universalist society will serve ice-cream, either by the plate or quantity, at the basement of the Universalist church, between the hours of 4 and 9 o'clock p. m., every Thursday.

Our Parish correspondent "Odd," made us a visit on Saturday last. Odd as he is (and there is no mistake about his oddities), we always enjoy his visits, and the one of last week was particularly enjoyable. He was in his pleasantest mood, put on his best behaviour, and seemed well pleased with himself and all mankind. He had several square inches of sunshine on his face, in fact his whole countenance beamed with delight. No wonder his "better half" is so proud of him.

HORSE RAKES.—Farmers who want superior horse-rakes at a low price, will do well to purchase of Homer Ames of this village. See his advertisement in another column.

PARISH.

"Uncle Con" Brooklyn, of this place, met with quite a loss on Friday of last week. He was at work with his horse, and on reaching a creek, the animal halted to drink. Immediately after leaving the creek he fell down and died instantly.

Dr. Westcott is buying the virtues of printers' ink.

H. D. Nutting, Esq., of Virginia is here on a visit, and rumor hath it that he finds special attractions in one of our "schoolmarm's."

Andrew Ashton, of Durant, Ill., formerly Supervisor of this town, is making us a visit. Judging from his looks, there is no drought in Illinois.

G. W. Becker, of Davis, Ill., is also here on a visit. He is looking well and feeling well.

Obituary.

Died in New Haven, June 25, 1873, at the residence of her youngest son, W. W. Squires, of old age, Mrs. Eunice Squires, aged 83 years and 7 months.

Deceased was formerly from Columbia Co., in this state, and moved with her husband, Pierre Squires, to Lebanon, Madison Co., N. Y., in 1817. About this time she and her companion embraced the Christian religion, and united with the Congregational church. The subject of this sketch has always since her conversion lived a consistent Christian, and has left the church militant for us, we believe, a happy home above. From a family of 7 children, 5 are left to mourn the loss of an affectionate mother.

For nearly 40 years she was partially deprived of her sight, so much so that she could not see to read, and was therefore denied many of the privileges that others enjoy. Although deeply afflicted for so many years, she continued steadfast in following the Saviour, believing that "these light afflictions which work out for her a far more exceeding and eternal weight of glory."

Her husband died at New Haven, June 11, 1861. Their residence had been in that town since the spring of 1846.

Deceased was the mother of E. W. Squires of North Valley. Co.

Died, at his home, in this village, on Friday, June 27, Aaron Killam, aged 69.

Mr. Killam was a native of Peru, Vt., but had been a resident of the village of Mexico for fifty years.

He was widely known as a man of integrity, having a well balanced mind, strong convictions of duty, and an unshaken firmness in adhering to the right when fully assured that he was in the right.

As a citizen in this community, his place will indeed be hard to fill, since long experience in his work as Assessor, and surveyor, had given him an acquaintance with men and affairs here, such as few others possess, while the people had learned to place confidence in his judgment and honesty.

From his boyhood to the end of his days he had openly professed the faith of Universalist Christianity, and that faith was the comfort and blessing of his life when pain and sickness had fastened themselves upon him. He will be sadly missed by the church and society where his best interests were ever near his heart, and the sincere sympathy of all the members is extended to the bereaved family in their great affliction. The large assembly gathered at the Universalist church, where the funeral service was held on Sunday last, clearly testified to the respect and affection with which the citizens of Mexico regarded the deceased, and the sympathy they felt for the sorrowing friends.

REASONS WHY People prefer the Elias Howe Sewing Machine.

1st. It is more durable than any other machine in market. Being easily re-adjusted to take up wear.

2d. The shuttle is large, and never wears out, as the wear all comes on the carrier, which is adjustable.

3d. The head is movable, permitting the needle being set as near the shuttle as possible—a very essential point when changing a coarse needle for a very fine one, thereby preventing stitch-dropping or breaking needles.

4th. Bobbins can be filled without removing the work, saving much time and wear of machine.

5th. Very easily threaded, as all the tension and thread guides are open.

6th. The tension never needs changing for the same thread, no matter what material sewed.

The Court of Appeals of this State recently decided that the General Cattle Law, which empowers the seizure of cattle running at large or found trespassing, has application to cases where one cattle of an adjoining owner of land trespasses on the land of another; that is, that in order to justify the seizure of cattle under the statute before referred to, the cattle must have entered from the highway.

Should a subscriber to a newspaper or periodical, who has paid one year's postage in advance, remove within the delivery of another office before the expiration of a year, the postmaster should give him a receipt; the party should then notify the publisher to send his paper to the new office, where, upon presentation of the receipt, the postmaster must deliver the publication free for the remainder of the term paid for.

Baptist Quarterly Meeting.

The third Quarterly Meeting of the Oswego Baptist Association, was held with the Baptist church in this village, Tuesday and Wednesday of last week. Nearly all the churches in the county, connected with this body, were represented, and but three or four of the pastors were absent. The objects of these gatherings are purely religious; the elevation of the standard of piety; the encouragement of the feeble interests, and the extension of the "common salvation" throughout the county.

The opening sermon was delivered by the Rev. Baptist of Fulton, on Tuesday evening. It was a scriptural, earnest and manly plea for advancement all along the Christian line, both personal and churchly. The battle cry, "Let us now go up and possess the land, for we are well able to overcome it," was so elaborated as to stimulate every Christian to nobler and higher endeavor in the vineyard of the Lord.

The services of Wednesday opened with an interesting season of prayer, in which a large number participated. The true Israel of God are a generation of seeking, wrestling, praying ones; in this they imitate Jacob of old. The sermon by Rev. G. A. Ames, of Pulaski, was a timely and able effort, and was listened to with interest. This brother has but just entered the Association, but his ministry is being received with pleasure and profit. The last sermon was preached by Rev. L. Butterfield, on "Teaching to the Conscience." This sermon dealt largely in great seed thoughts, well adapted to the times, and taking hold of the vast interests of eternity. Parents, teachers, and especially ministers for the gospel should endeavor to keep awake, educate, purify and control the conscience. This is the great want of the age and land. This can only be accomplished by a "manifestation of the truth," the essential and eternal truth of God.

These sermons were well calculated to do a general and lasting good, and the doctrines they enunciated and enforced were those of the Bible. M. I.

Literary Notices.

THE UNDEVELOPED WEST.—OF Five Years in the Territories, by J. H. Beadle is the title of a work issued by the national Publishing Company, Philadelphia with 244 fine illustrations. From an examination of advance sheets we should judge it to be a very faithful and instructive work, written by an intelligent and observing person, who has properly availed himself of the opportunity of personal inspection, and is honest enough to give his readers more correct views of the far west, with its climate and capacities, than we can expect from parties who have objects to be served in giving rose-colored views of this or that locality. And as a narrative of personal adventure in such mysterious regions as those of the Aztecs in New Mexico and Arizona it has the usual charm of such a work. The volume is sold only by subscription and may be procured of all book agents, or by addressing the company.

NEW LIFE IN NEW LANDS.—By Grace Greenwood, comes to us from J. B. Ford & Co., Publishers. The volume is a reproduction of a series of letters originally contributed to the New York Times and is written in that racy, sparkling style which is the author's own. It is a book to drive away the blues, to give one a vivid idea of our great West and make him want to go over the same route. It is gotten up in a style worthy of its contents and will make a pleasant and valuable addition to the library.

STEEL'S FOURTEEN WEEKS IN CHEMISTRY.—Teachers and trustees of academies should examine this valuable work. The author has sought to make a pleasant study which the pupil who does not intend to become a chemist or professional student, can master in one term; to acquaint the youth with that "practical part of the science which concerns our every-day life, in the hope of bringing the schoolroom, the kitchen, the farm, and the shop in closer relationship." His success in former works of similar intent on other sciences is a guarantee of what he has done in this.

THE TRIP TO EUROPE.—We have received the June number of this magazine of information for ocean travelers, which is full of valuable information for those who intend visiting the old world. While in Europe we availed ourselves of Cook's plan of travel for tourists and found it highly satisfactory. Communications respecting tours and excursions to be addressed to Cook, Son & Jenkins, 262 Broadway, New York.

PETER'S MUSICAL MONTHLY.—For July contains the following new music: "Whisper Softly, Mother's Dying;" "Julia's Song;" "Softly Shone the Stars of Heaven;" "God Bless our Home;" "Come, Holy Spirit;" "The Wild Hunter Gallop;" for four hands; "Fannie's Quickstep;" "Danse Cubaine;" "Golden Chimes." Published by J. L. Peters, 509 Broadway, New York.

VICK'S FLORAL GUIDE.—We have received the second and third numbers of this publication, now become quarterly. Its typography and illustrations are very fine, and to those interested in the culture of flowers (as almost everybody is) the magazine is of great value.

STRAWBERRIES AND RELIGION.—The Cincinnati Commercial has discovered that in some mysterious way the strawberry is intimately associated with religion. It seems to be the peculiar fruit on which the churches rely when money is needed for religious enterprises. If a church is to be built or furnished, a pastor to be paid, a Sunday school to be organized, a parsonage to be equipped, a missionary to be provided for, or a theological student to be educated, a strawberry festival is forthwith suggested. There is no church want which the strawberry is not supposed to be equal to. So it comes that strawberries and religion come to be as naturally associated in the mind as beer and pretzels, or Iowa and lollipop.

A gentleman of years and experience, asserts that we are to have a very sickly summer, with a probability of some cholera. He bases his expectations on the peculiar circumstances that there are comparatively few flies this summer. He says this is a marked indication of the approach of disease or epidemic.

—The first case under the new civil damage law, came up in Oswego, Thursday. A wife informed a liquor dealer she should prosecute him for damages to her husband for loss of time and amount of fine imposed by the recorder. The liquor dealer, rather than to submit to this, paid the husband's fine, and thus the case was settled.

—The latest dodge for shoplifters is known as the umbrella dodge. A thief enters with an umbrella partly open; he hangs it on the counter, and appraises all sorts of articles, generally valuable material of small bulk.
